The Cybersecurity and Infrastructure Security Agency (CISA) of the U.S. Department of Homeland Security (DHS) is not the originator of this information. CISA is forwarding this information, unedited, from its originating source – this information has not been originated or generated by CISA. This information may also be shared with law enforcement or intelligence agencies.

CISA affirms that it neither has nor seeks the ability to remove or edit what information is made available on social media platforms. CISA makes no recommendations about how the information it is sharing should be handled or used by social media companies. Additionally, CISA will not take any action, favorable or unfavorable, toward social media companies based on decisions about how or whether to use this information.

In the event that CISA follows up to request further information, such a request is not a requirement or demand. Responding to this request is voluntary and CISA will not take any action, favorable or unfavorable, based on decisions about whether or not to respond to this follow-up request for information.

Subject: Twitter report

<https://twitter.com/EricJafMN/status/1323618706669346816>

This is incorrect. Provisional ballot rules vary by state by they are not “probably thrown out.” Every single vote is reviewed for eligibility and, assuming they’re eligible, counted consistent with state law.

Matt,

Sorry to message late, but was going through the dos page and comments (old habits from EAC die hard) and came across these posts. Sorry to screenshot, but if you go to our page you should be able to see the comments on the post and go to the pages.

Are these making their way around the internet? Because there is no polling place I know of that has overhead cameras. Just don't want another "burning ballots" fake thing spreading.

Apologies for sending to you all first, but I didn't want to call an all hands meeting here when some of our folks are getting their first few real hours rest since Monday.

Thanks,

Jess

Matt,

Can you assist with flagging this election disinformation content? It's patently false. Dominion has no server in Germany, and you should be able to confirm with DOD that this is untrue. Looks like it's recycling old viral claims and/or newer false claims posted to a disinformation website called thedonald.win, which we have also reported. Since the thread claims this is an Amazon server and it looks like others are saying this, you should be able to check with them to confirm this is fake news as well. Thanks.

@RL9631

Connecticut committed fraud as well you should check in to this. On Nov 5 two days after the election there were 1.8 registered voters today they have 2.1 million, how can this be possible??

Connecticut has 2.3 million registered voters, as announced days before the election:

<https://portal.ct.gov/SOTS/Press-Releases/2020-Press-Releases/Secretary-Merrill-Announces-Record-Breaking-Voter-Registration-in-Connecticut>

2. <https://twitter.com/thezinctable/status/1326771448044802057>

@TheZincTable

CONFIDENTIAL

@thezinable

@seanhannity

@TuckerCarlson

Thank you for mentioning voting corruption in #Connecticut. My dogs, whose names we use for Gmail and FB accounts received 'unsolicited' ballots. Big Tech data-mining has aided #Democratic voter fraud in CT.

CONFIDENTIAL

1:18 AM · Nov 12, 2020 · Twitter Web App

No voters received unsolicited ballots; in CT, a voter must fill out an absentee ballot application in order to receive a ballot. Also, absentee ballot applications were mailed to active, registered voters on our state's voter file, not to any list obtained from facebook or gmail.

Thanks again,

Gabe

Hi,

I am the public information director at the North Carolina State Board of Elections and have been alerted to this post from Sandy Smith. It is false. Dominion Voting Systems are not certified, nor used, anywhere in North Carolina. We would greatly appreciate this post being removed. Happy to provide any additional information. I can be reached at the M number below.

Thank you.

Sandy Smith NC @SandySmithNC · Dec 1

...

I ran for congress. Did better than anyone ever did in this district on the Republican side. Dominion was used in my district. My polling had me ahead. Yet somehow my opponent got truckloads of ballots without even campaigning. No audit. No precinct breakdown. Total sham! #NC01

Subject: Disinformation attack on Youtube and Twitter: "#DETROITLEAKS" video from 10/21/2020

Hello EI-ISAC,

My name is Jordan Smellie. I am the Elections Specialist for the City of Ferndale, Michigan. My email address is [REDACTED]@ferndalemi.gov .

I am reporting a disinformation (misinformation) attack video that was posted on YouTube on October 21 and repeatedly posted on Twitter since then, targeting election administration by the City of Detroit and State of Michigan and alleging an organized conspiracy by City and State employees.

The video is titled:

#DETROITLEAKS: State Employees Train Poll Workers to Lie to Voters, Destroy Ballots, Stop Challengers [sic]

The title card (which shows on YouTube's search screens and on some links) is:

"The Vote Fraud Scheme To Steal Michigan"

I have attached a screenshot of this title card, as requested by EI-ISAC.

The video can be found here:

<https://www.youtube.com/watch?v=uHeodzJ5cNM>

It was posted by this user:

<https://www.youtube.com/channel/UCWs1IIWCNra9Zf8Xew9mTsw>

CONFIDENTIAL

It has been posted on Twitter multiple times since October 21, almost entirely by @bigleaguepol (“Big League Politics”), which is a far-right site that appears to primarily invent conspiracy theories and is operated by former Breitbart News employees. The tweets about the video use the same #DETROITLEAKS hashtag as the video title. This account ‘teased’ the video in a tweet on October 20.

The video takes what it alleges are recordings of “State Employees” (which are more likely City of Detroit Department of Elections employees, although they do not identify themselves in the audio), and misrepresents the audio by using on-screen commentary to misinform the viewer of the video.

- From 2:32 – 4:16, the person in the audio is describing the correct process for a provisional affidavit ballot (also colloquially called a “challenged ballot”).
 - At 2:42, the on-screen text claims that “*Before 2020, NO challenged ballot would go into the tabulator.*” This is not true. Provisional affidavit ballots, as well as challenged absentee ballots, have always been fed through the tabulator on Election Day. That is exactly why they are prepared as correctly described in the audio (ballot number written on the ballot and covered up with a removable sticker)—which makes the claim at 3:04 completely wrong. Provisional Affidavit ballots always get voted as normal and are placed into the tabulator. Provisional Envelope ballots are sealed individually inside their own envelope (not placed into the tabulator) and are returned to the City Clerk for processing in the following days. These processes are not new to 2020; they have been in place for over a decade.
 - At 3:55, the text incorrectly claims that “*all challenged ballots WILL be counted immediately on Election Night*”, which is wrong. Provisional Affidavit ballots are counted along with all others. Provisional Envelope ballots are not.
 - 4:12 attempts to cast doubt on the process of identifying and removing a ballot deemed uncountable—which would only happen under court order, as only Provisional Envelope ballots would wind up inside the tabulator or the sealed ballot container and need to be retrieved. The video claims “*This will NEVER happen. Unless MAYBE in a recount.*” Recounts have little to do with Provisional Affidavit ballots, and the assertion that the justice system would never take action to reverse proven voter fraud is entirely baseless. It serves only to cause the voter to doubt the good intentions of the judiciary and the justice system.
- At 4:20, the video refers to the Clerk’s Office Voter Registration Receipt as “*an easily-forged piece of paper*”. Again, this is a baseless accusation intended only to denigrate the legal election process and cause the video viewer to feel fear and doubt the security of Michigan’s election.
- At 7:30, the video insinuates that simply using “*children*” (16- and 17-year olds, allowed under state law) as election inspectors is an intentional part of a conspiracy to intentionally undermine the election.
- At 9:04, the audio and the on-screen captions describe an absentee ballot that has been “*Sent and received*”, meaning the Clerk has received the voted ballot from the voter and recorded it as such. This would have happened multiple days prior to the election. At 9:14, the video immediately turns around and ignores that by presenting a hypothetical ‘scenario’ where the voter might not have returned that very same ballot. This is completely contradictory, and is a total misrepresentation of the audio from the actual training scenario that has been recorded. At 9:23, the trainer in the audio even specifically says “You’ve already voted.”

This video is misinformation and disinformation because it repeatedly takes normal processes being correctly described as written in state law, and alleges in on-screen text that they are somehow problematic, or will not be followed. On multiple occasions, the on-screen text directly contradicts the audio. However, these are items that would likely only stick out to an election administrator; a member of the general public would follow the video's lead and assume that there is somehow a problem being described. Furthermore, the video makes outright false claims, alleging actions that are prohibited under Michigan election law.

Copied on this email are the following individuals and offices, per the directions from EI-ISAC:

- Mame McGrath, City Clerk, City of Ferndale
- George Azzouz, Director, City of Detroit Department of Elections
- Bureau of Elections at the Michigan Department of State
- Civics Outreach office at Google
- Government office at Twitter

This video is an attack on the City of Detroit, the State of Michigan, and by direct extension, all local election administrators in the state of Michigan, such as myself. This will disinform voters outside Detroit as easily as voters inside Detroit. Indeed, the choice of words throughout the video and in the calls to action at the end of the video infer that the video's audience is primarily people who are not Detroit residents. If that audience can be spurred to create unrest in Detroit, they can easily do the same in other jurisdictions, such as my jurisdiction as Detroit's immediate northern neighbor.

Thank you for your investigation and action. If I can be of any further assistance, please let me know and I will be happy to provide support.

Best,

Jordan Smellie
Elections Specialist

Subject: Possible misinformation on Twitter](mailto:@sos.wa.gov)

Hello,

I wanted to flag two tweets with possible misinformation about the election.

<https://twitter.com/JamesCAAustin/status/1321738257399533571> -- “Ballots can appear whenever, from whomever” is false.

<https://twitter.com/nifty john/status/1321759027508908033> -- The response to the above tweet includes the following sentence: “Washington State in 2004 judges ignored the real count and rewarded the Democrats.” That is not a factual statement.

My name is Nick Jacob, and I’m an Executive Receptionist for the Washington Office of the Secretary of State. I can be reached via this email or the number listed in my signature block below. My cell phone is monitored after hours if I need to be reached urgently.

I am also copying Washington State Elections Director Lori Augino, Office of the Secretary of State Communications Director Kylee Zabel, and our Web and Social Media Coordinator Kiran Boyal.

Please let me know if you have any questions or need additional information.

Thank you.

-Nick

Good evening team Twitter,

Please see the below report from Washington

CONFIDENTIAL

Regards,
Brian

The Cybersecurity and Infrastructure Security Agency (CISA) of the U.S. Department of Homeland Security (DHS) is not the originator of this information. CISA is forwarding this information, unedited, from its originating source – this information has not been originated or generated by CISA. This information may also be shared with law enforcement or intelligence agencies.

CISA affirms that it neither has nor seeks the ability to remove or edit what information is made available on social media platforms. CISA makes no recommendations about how the information it is sharing should be handled or used by social media companies. Additionally, CISA will not take any action, favorable or unfavorable, toward social media companies based on decisions about how or whether to use this information.

In the event that CISA follows up to request further information, such a request is not a requirement or demand. Responding to this request is voluntary and CISA will not take any action, favorable or unfavorable, based on decisions about whether or not to respond to this follow-up request for information.

Misinformation report: two tweets alleging fraud in Washington state elections

From: Jacob, Nick [REDACTED]@sos.wa.gov>
Sent: Wednesday, October 28, 2020 4:44 PM
To: Misinformation Reports [REDACTED]@cisecurity.org>

Subject: Possible misinformation on Twitter

Hello,

CONFIDENTIAL

I wanted to flag two tweets with possible misinformation about the election here in Washington state.

<https://twitter.com/zsuzisuz/status/1321389225439158272> -- In the 2018 general election, 0.004% of the ballots were flagged as potentially fraudulent (142 out of the nearly 3.2M cast). Also, "if they see an 'R' they ditch it" is completely false. Washington voters do not register by party, and there's a detailed reconciliation election officials must report after every election that accounts for every ballot issued, received, counted, and rejected.

<https://twitter.com/BlondeAtomic20/status/1321350159498792960> -- See statistic cited above. There is no evidence Democrats in Washington have been cheating or committing fraud in any of our elections.

My name is Nick Jacob, and I'm an Executive Receptionist for the Washington Office of the Secretary of State. I can be reached via this email or the number listed in my signature block below. My cell phone is monitored after hours if I need to be reached urgently.

I am also copying Washington State Elections Director Lori Augino, Office of the Secretary of State Communications Director Kylee Zabel, and our Web and Social Media Coordinator Kiran Boyal.

Please let me know if you have any questions or need additional information.

Thank you.

-Nick

Misinformation report: tweet alleges tabulation machine ran out of ink which caused delay in counting absentee ballots---there is no ink involved in tabulation machine (Green Bay, WI)

Tweet

Reid J. Epstein @reidepstein · 2h
Green Bay's absentee ballot results are being delayed because one of the vote-counting machines ran out of ink and an elections official had to return to City Hall to get more.

This is false. There is no ink involved in the machines used in tabulation of the ballots, a fact confirmed by the state: https://twitter.com/wi_elections/status/1323931755473240066?s=21
